**HIGHLY SOLUBLE** - Application rates of 3 to 9 lbs. per acre and it can be blended with other products

**READILY AVAILABLE** - Water soluble, nitrogen and potassium source that plants can immediately take up.

**APPLIED FOLIAR OR FERTIGATE** - Apply directly to plants to improve nutrient utilization at key points during the growing cycle.

**CONTAINS AMINO ACIDS** - Amino acids have high carbon/nitrogen ratio to feed plant and micro-organisms.

**NON-GMO SOY PROTEIN** - formulated using all-natural soy protein BlackJack is approved for organic use.

# TECHNICAL DATA

# 7-0-26

## Guaranteed Analysis

Total Nitrogen (N)	7 %
7% water soluble nitrogen	
Soluble Potash (K)	26%

Available in 40 lbs and 2000 lbs totes

## Chemical Composition

Derived from soy protein hydrolysate and sulfate of potash

Information regarding the contents and levels of metals in the product is available on the internet at <http://www.aapfco.org/metals.html>

Always use a jar test for compatibility before mixing with other products.

Store in a cool dry place away from excessive moisture and heat.

**Directions for Use:** Apply 3-9 lbs per acre when plants are actively growing or as needed based on your nutrient management program determined from soil and plant analysis for your crop.
